There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extra-ordinary effect of Swamp-Root is soon realized. It stands the highest for its won-derful cures of the most distressing cases. If you need a medicine you should have the best. Senators Turner and Mallory Attack the Measure.

HANNA AND FRYE WERE SCORED

Spooner Will Ask Substitution of the Oleomargerine Bill, and Opposition Express Satisfaction.

WASHINGTON, Feb. 2.-The Schate devoted the entire day to the discussion of the ship subsidy bill. Mr. Turner and Mr. Mallory were the speakers in behalf

of the opposition.

Mr. Foraker, of Ohio, had read a cablegram from Governor Allen, ef Porto Rico, saying the Legislature had adjourned after a successful session. This ied to some discussion of the conditions in Porto

Mr. Turner, of Washington, took the floor in opposition to the shipping bill. He made an analysis of Mr. Frye's speech, undertaking to show numerous errors in it.

Mr. Frye contended for the correctness of his position, but said that there might

of his position, but said that there might be an error in calculation.

Mr. Aldrich made another effort to se-cure action upon the amendments to the ship-subsidy bill, offered by himself, but Mr. Mallory, of Florida, announced that he desired to speak upon the measure, and he declined to yield for that action, and arradgned the measure in general. He attacked the bill on constitutional grounds. Even Senator Edmunds had ad-mitted that the pounties are in contraven-

attacker the bin of constraints and admitted that the bounties are in contravention of the Constitution, he said.

Mr. Mallory quoted Mr. Hanna as saying that the twenty-one kot and twenty-two knot ships would not be increased under this bill. From this admission, Mr. Maliory argued that the bill could do nothing toward providing auxiliary cruisers, for no slow vessel could be utilized as a cruiser, and in conclusion, Mr. Mallory contended that the subsidy bill would not be the boon to the American shipping which it had been promised it should be, while he believed it would prove the inauguration of a new era in American affairs in the matter of giving bounties to individual enterprises.

Senator Spooner to-day authorized the statement that if it should become necessarw to do so he will move the substitution of the eleomargarine bill as the regular order of business in the Senate in-

stead of the pending ship-subsidy bill.

The declaration of Senator Spooner afforded great satisfaction to the opposition senators to whom it was communicated. They now assert great confidence in their ability to accomplish the defeat of the subsidy bill during the present session.

Mr. Free said to fact the results. Mr. Frye said to-day that he would press the subsidy bill to the utmost, but only until it should be considered necessary to take up the appropriation The general understanding is that he will not antagonize the supply bills whenever it is considered necessary to press them.

by E. Cornell, representing the commitee, was \$300,000. E. P. Williams repre-enting the local bondholders, storted the bidding at \$175,000 and ran it up, his last bid being \$280,000.

Caught Out on a "Fewl."

Our jailer got interested in catching a stray chicken yesterday. Forgetting that the doors were unbolted—forgetting every-thing but the fowl in question, he went in pursuit, and on his return discovered that one of his jail birds had flown—the negro who was sentenced last week to two years in the State prison.—Radford Advance.

THE ROOT OF THE MATTER.

He Cured Himself of Serious Stomach Trouble Down to First Principle.

A mun di large affairs in one of our prominent eastern cities by too close attention to business, too little exercise and too many club dinners, finally began to pay nature's tax, levied in the form of chronic stomach trouble; the failure of his digestion brought about a nervous irritability, making it impossible to apply himself to his daily business and finally deranged the kidneys and heart.
In his own words he says: "I consulted

one physician after another, and each one seemed to understand my case, but all the same they each failed to bring about the return of my former digestion. appetite and vigor. For two years I went from pillar to post, from one sanitarium to another. I gave up smoking, I quit coffee and even renounced my daily glass or two of beer, but without any marked improvement.
"Friends had often advised me to try

well-known proprietary medicine Stuart's Dyspensia Tablets-and I had often perused the newspaper advertise-ments of the remedy, but never took any stock in advertised medicines nor could believe a fifty-cent patent medicine would

touch my case.
"To make a long story short I finally bought a couple of packages at the near-est drug store and took two or three tablets after each meal and occasionally a tablet between meals, when I felt any eeling of nausea or discomfort

"I was surprised at the end of the first week to note a marked improvement in ore the two packages were gone I was certain that Stuart's Dyspepsia Tablets was going to cure completely and they did not discrepoint me. I can eat and sleep and enjoy my coffee and eigar, and would suppose I had ever known

no one would suppose I had ever known the horrors of dyspepsia.

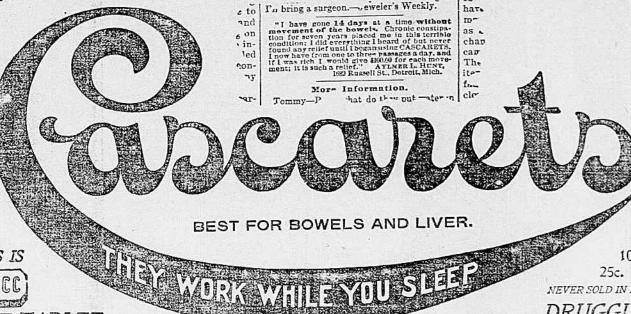

Out of friendly carrosity I wrote to the proprietors of the remedy, asking for information as to what the tablets conformation as to what the tablets conformation is to what the tablets of the conformation is the conformation of the conformation in the conf tained and they replied that the principal ingredients were asceptic pepsin (govern-ment test), malt diastase and other natural digestives, which digest food regardless of the condition of the stomach."

The root of the matter is this, the digestive elements contained in Stuart's Dyspepsia Tablets will digest the food, give the overworked stomach a chance to recuperate and the nerves and whole system receive the nourishment which can only come from food; stimulants and nerve tonics never give real strength, hey give a fictitious strength, invariably followed by reaction. Every drop of blood, every nerve and tissue is manu-factured from our daily food, and if you can insure its promt action and complete digestion by the regular use of so good and wholesome a remedy of Stuart's Dyspepsia Tablets, you will have no need of nerve tonics and sanitariums.

Although Stuart's Dyspepsia Tablets

have been in the market only a few years yet probably every druggist in the United Duval's, No. 301 East Franklin Street. THE BEST TEST

Is the Service and Experience of Years The best soldier is not the new recruit

The best soldier is not the new recruit of a few months' service. The best mechanic is not the apprentice, and the best man in the line is he who has been tried by years of service

and experience.

This is not only true of men but of nearly everything else and especially is it true of medicines for diseases. New remedies must be thoroughly tested and their merit established beyond question before the intelligent public will put faith in There are not many remedies which

have stood the test of ten years and continued to increase in popularity each year, but this is true of the Pyramid Pile Cure, and it is the only pile cure that has stood this test, and among the many popular medicines on the market it is the only one which can be said to have no com petitor; its sale has steadily increased from year to year and this result has been not so much because of judicious advertising as because it has b

advertising as because it has mended by word of mouth from one cured sufferer to another.

Piles is supposed to be caused in most cases by a sedentary life and lack of exercise, but it generally comes without any apparent excuse and often people who live an active outdoor, life are victims of the disease. A case in point is that of the disease. A case in point is that of James Creeden, a lumberman and team-ster in Northern Michigan. He says: "I suffered for eight or nine years from itching and protruding piles, sometimes so severely that I could scarcely walk, so severely that I could scarcely walk, then I would get better for a week or two, but the trouble always returned. I could not afford the expense of an operation and endured the disease until I was additable for mether who lived in Manis. vised by my mother, who lived in Manis-tiee, to give the Pyramid Pile Cure a trial. I had never heard of it, but when I went to town I asked my druggist about it and be told me he had sold it for years and he told me he had sold it for years and never had a complaint of its failure to cure piles.
I bought a package and found not only

Meeting of Journeymen Bakers.

The Journeymen Bakers of Richmond held a large and most eathusiastic meeting in Lee Camp Hall last night. Much importan business was transacted, and eight new members were received, making a total membership of forty-eight.

The local organization's contract for the use of the union label was endorsed by the Executive Committee of the International Union, and copies of the contract will be sent to every employing baker in Richmond within the next few days.

It was also decided that after March 1st the initiation fee would be increased to \$5. The local union last night appointed a committee to wait on the non-union four-neymen bakers of this city. The local union is in a most prosperous condition, and is greatly encouraged with the out-look.
